

Guidelines to prepare our proceedings!

You are all invited to prepare and submit your extended abstract for our annual proceedings with *Frontiers in Physiology* journal!

Please find in the specific file the template.

The expected deadline is September the 4th but do not hesitate to send it as soon as possible by email: isgp.space@gmail.com

We also expect from invited speakers and from participants who presented a review to submit this kind of short paper.

Those proceedings are very important for our scientific society to make all our activities and work more visible.

The structure of this paper could be of course adapted but should fit the maximum length and the maximum number of tables and figures.

There will be no specific publication fees for the authors.

As example, here are the proceedings for our 2021 meeting:

http://www.isgp-space.org/wp-content/uploads/2022/02/Proceedings_ISGP_2021_V2.pdf

do not hesitate if you have any questions: isgp.space@gmail.com
